

ABOUT THE PROJECT

The Skokomish Indian Tribe was awarded federal funds under the Federal Transit Authority Tribal Transit Grant Program for a pilot public transit service enhancement project. Mason Transit Authority was chosen to operate the service on behalf of the Skokomish Tribe, providing vehicles and drivers.

The route runs along Highway 101 between Shelton and Hoodport. Additional service is provided from June to November, extending the pilot route on State Route 119 to the Skokomish Park (Lake Cushman).

The Skokomish Tribe anticipates securing funding for sustaining operations into future years. We are excited to bring this service to our communities!

Please feel free to contact us with your feedback.
