He thanked the Board for consideration of Sunday service. Michael Siphoth of TriCounty Climate Action, requested that when making decisions that MTA examine climate impacts and that he appreciate what MTA has done so far. He further requested that MTA consider green purchases, efficiencies can reclaim buses and fleet vehicles for others. Small steps make a difference.

Motion carried.**

INFORMATIONAL UPDATES –

General Manager, Danette Brannin, discussed the upcoming open house meeting relating to the SR3 and Log Yard Road intersection.

Board member Drexler requested that Mr. Krier speak on greener alternatives. Mr. Krier described Governor Inslee's mandate for transit agencies to use biofuels and other alternatives for a cleaner environment. While considering electric buses, some of the cost drivers are that they cost anywhere from \$750,000 to \$900,000 compared to conventional diesel powered buses that cost approximately \$500,000. Additionally, electric bus manufacturers are struggling to keep up with current orders and not all the problems have been worked out. MTA is always looking at clean diesel technology and the latest change has been to the B5 biodiesel. Citizen Herb Gerhardt mentioned that approval to submit an application for an electric bus had previously been given by the Board. Mr. Krier replied that the application had been submitted but the grant was not awarded to MTA.

GENERAL MANAGER'S REPORT – Ms. Brannin reported that MTA has not yet heard from the Department of Ecology on the T-CC parking lot matter.

COMMENTS BY BOARD MEMBERS – Board member Martin appreciated the information provided in the overview presentation of the service review and looking forward to seeing the piece on next set of comments.

PUBLIC COMMENT – [None.]

Moved that the meeting be adjourned.

Agenda Item: Unfinished Business – Item 2 – *Actionable*

Subject: Belfair Park & Ride Building Approval

Prepared by: Danette Brannin, General Manager

Approved by: Danette Brannin, General Manager

Date: May 15, 2018

Summary for Discussion Purposes:

MTA's current plan for the Belfair Park & Ride facility is a 2,100 sf building for the purpose of providing office space, a breakroom, bathrooms and a kitchen for the drivers. There will be a conference/multi-purpose room to be used by MTA and the public. The facility will not be open to the public during operating hours, with the exception of use of the conference/multi-purpose room. The Architect's estimated cost for the building is \$335 per square foot, approximately \$700k.

Discussion has occurred over the last several months regarding adding additional space that could be leased by another government entity or non-profit. There is interest from parties but no firm commitment.

Staff is proposing adding 1,000 sq. ft. to the building to accommodate a future tenant. Leaving the additional space unfinished would reduce the cost of \$335 per sq. ft. to approximately \$235 per sq. ft. for the additional space.

MTA's intention is not be to compete with other property owners in the area; only to provide a partnership that could benefit both parties and use public dollars efficiently.

A board decision is needed so staff can proceed with the building plans and the site development.

Fiscal Impact:

\$235k – 335k additional cost. The budget can support the additional square footage.

Staff Recommendation:

Approve.

Motion for Consideration:

Move that the Mason Transit Authority Board approve additional square footage at the Belfair Park & Ride Transit office building.
