New “Where is my Bus?” App

SHELTON, WA – Mason Transit recently introduced a new mobile app that shows bus locations in real time, as well as providing complete route information.

“If you’ve ever taken an Uber or other rideshare, you know how handy it is to track your ride. The new app gives bus riders the same convenience,” said Amy Asher, general manager of Mason Transit. “Our goal is to improve rider experience.”

The “Where is my Bus?” app offers the benefits of a printed schedule with the addition of being able to watch the progress of your bus. Moving arrows represent all buses on a route. The app also provides bus stop locations, arrival times and even route traffic conditions.

The free app can be downloaded to Apple and Android phones directly from the Mason Transit website at <http://www.masontransit.org/bus-tracker>.

*[Mason Transit Authority](http://www.masontransit.org) serves the Mason County community and connects with area transit systems including Grays Harbor Transit, Intercity Transit (Thurston County), Jefferson Transit, Kitsap Transit, Squaxin Island Transit and Sound Transit, which in turn provides connections to the ferries, Amtrak and Greyhound service. **You can go anywhere from here!** Mason Transit Authority is a partner in the Health & Safety Commitments Program of The American Public Transportation Association.*
