Vehicle Equipment Photo Appendix

RFP No. 2026-01 - CAD/AVL, Scheduling, Dispatch & Passenger Information System

Purpose

Representative photographs of MTA vehicle equipment groups are provided to assist proposers in evaluating existing vehicle configurations, equipment interfaces, installation conditions, and potential integration requirements.

Representative-photo disclaimer. Photographs in this appendix are provided for informational purposes and depict representative vehicles within each equipment group. Individual vehicles may contain minor variations in equipment, configuration, mounting, wiring, or condition. Proposers are responsible for identifying compatibility requirements and should clearly identify any assumptions, interfaces, replacement equipment, supplemental hardware, or installation requirements associated with their proposed solution. Final equipment configuration and installation requirements will be coordinated with MTA during implementation.

Photo identification. Vehicle group assignments in this corrected appendix were verified against visible fleet numbers and vehicle configurations in the source photographs. Captions remain intentionally general unless equipment identification is clearly visible.

Equipment Group 2201-2203

Representative Vehicle Type: Toyota Sienna

Representative exterior, passenger-entry, operator-area, electrical/equipment, and onboard technology views are shown below, as applicable.

Photo 1 - Representative equipment/configuration view

Photo 2 - Representative equipment/configuration view

Photo 3 - Representative equipment/configuration view

Photo 4 - Representative equipment/configuration view

Equipment Group 306

Representative Bus 306

Representative exterior, passenger-entry, operator-area, electrical/equipment, and onboard technology views are shown below, as applicable.

Photo 1 - Representative equipment/configuration view

Photo 2 - Representative equipment/configuration view

Photo 3 - Representative equipment/configuration view

Photo 4 - Representative equipment/configuration view

Equipment Group 306 (continued)

Representative Bus 306

Photo 5 - Representative equipment/configuration view

Photo 6 - Representative equipment/configuration view

Equipment Group 320-322

Representative Bus 322

Representative exterior, passenger-entry, operator-area, electrical/equipment, and onboard technology views are shown below, as applicable.

Photo 1 - Representative equipment/configuration view

Photo 2 - Representative equipment/configuration view

Photo 3 - Representative equipment/configuration view

Photo 4 - Representative equipment/configuration view

Equipment Group 320-322 (continued)

Representative Bus 322

Photo 5 - Representative equipment/configuration view

Photo 6 - Representative equipment/configuration view

Photo 7 - Representative equipment/configuration view

Equipment Group 330-331

Representative Bus 331

Representative exterior, passenger-entry, operator-area, electrical/equipment, and onboard technology views are shown below, as applicable.

Photo 1 - Representative equipment/configuration view

Photo 2 - Representative equipment/configuration view

Photo 3 - Representative equipment/configuration view

Photo 4 - Representative equipment/configuration view

Equipment Group 330-331 (continued)

Representative Bus 331

Photo 5 - Representative equipment/configuration view

Photo 6 - Representative equipment/configuration view

Photo 7 - Representative equipment/configuration view

Equipment Group 340

Representative Bus 340

Representative exterior, passenger-entry, operator-area, electrical/equipment, and onboard technology views are shown below, as applicable.

Photo 1 - Representative equipment/configuration view

Photo 2 - Representative equipment/configuration view

Photo 3 - Representative equipment/configuration view

Photo 4 - Representative equipment/configuration view

Equipment Group 340 (continued)

Representative Bus 340

Photo 5 - Representative equipment/configuration view

Photo 6 - Representative equipment/configuration view

Photo 7 - Representative equipment/configuration view

Equipment Group 2410-2417

Representative Bus 2414

Representative exterior, passenger-entry, operator-area, electrical/equipment, and onboard technology views are shown below, as applicable.

Photo 1 - Representative equipment/configuration view

Photo 2 - Representative equipment/configuration view

Photo 3 - Representative equipment/configuration view

Photo 4 - Representative equipment/configuration view

Equipment Group 2410-2417 (continued)

Representative Bus 2414

Photo 5 - Representative equipment/configuration view

Photo 6 - Representative equipment/configuration view

Photo 7 - Representative equipment/configuration view

Equipment Group 2420-2430

Representative Bus 2420

Representative exterior, passenger-entry, operator-area, electrical/equipment, and onboard technology views are shown below, as applicable.

Photo 1 - Representative equipment/configuration view

Photo 2 - Representative equipment/configuration view

Photo 3 - Representative equipment/configuration view

Photo 4 - Representative equipment/configuration view

Equipment Group 2420-2430 (continued)

Representative Bus 2420

Photo 5 - Representative equipment/configuration view

Photo 6 - Representative equipment/configuration view

Photo 7 - Representative equipment/configuration view

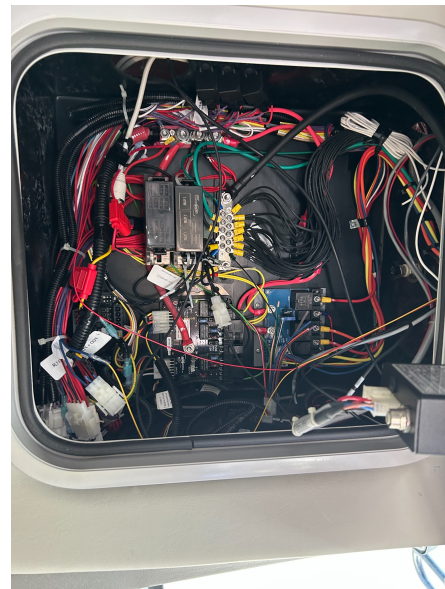

Photo 8 - Representative equipment/configuration view

Equipment Group 2420-2430 (continued)

Representative Bus 2420

Photo 9 - Representative equipment/configuration view

Photo 10 - Representative equipment/configuration view

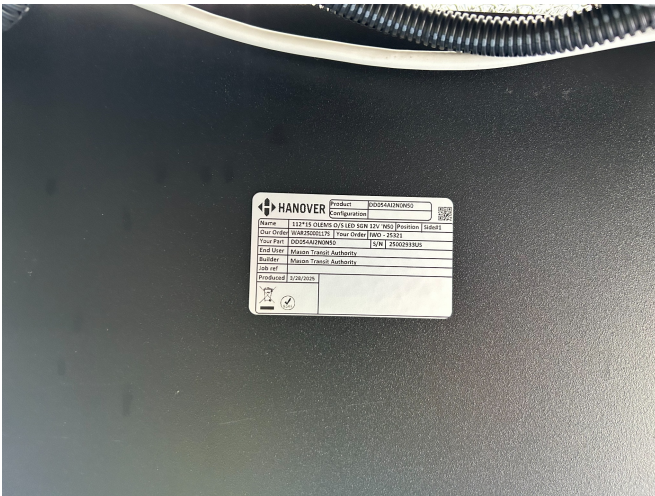

Photo 11 - Representative equipment/configuration view

Equipment Group 2630-2635

Representative Bus 2631

Representative exterior, passenger-entry, operator-area, electrical/equipment, and onboard technology views are shown below, as applicable.

Photo 1 - Representative equipment/configuration view

Photo 2 - Representative equipment/configuration view

Photo 3 - Representative equipment/configuration view

Photo 4 - Representative equipment/configuration view

Equipment Group 2630-2635 (continued)

Representative Bus 2631

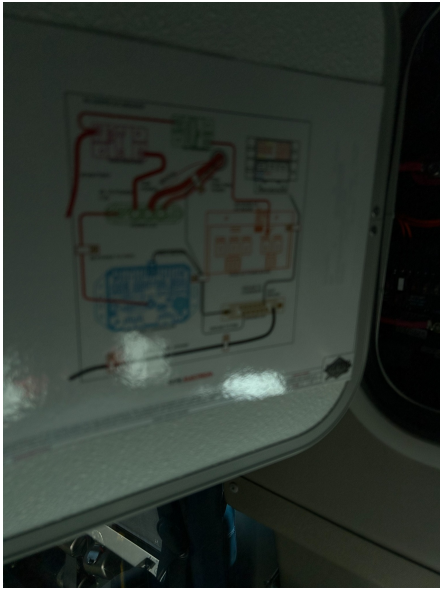

Photo 5 - Representative equipment/configuration view

Photo 6 - Representative equipment/configuration view

Equipment Group 2640-2649

Representative Bus 2642

Representative exterior, passenger-entry, operator-area, electrical/equipment, and onboard technology views are shown below, as applicable.

Photo 1 - Representative equipment/configuration view

Photo 2 - Representative equipment/configuration view

Photo 3 - Representative equipment/configuration view

Photo 4 - Representative equipment/configuration view

Equipment Group 2640-2649 (continued)
